

TOGETHER IN HEALTH

ABC Network is an Accountable Care Organization (ACO). This is a new term that means that we are a group of healthcare providers who work together to improve the quality and cost of care for their patients.

We work alongside your Health Center and doctors to ensure that you get the health care that you need.

We are not a Medicare Advantage Plan or a Managed Care Health Plan.

- ✓ We do not change your health coverage.
- ✓ You can continue seeing any doctor you choose.
- ✓ You remain in full control of your healthcare decisions.

WE ARE ONLY HERE TO HELP. THERE IS NO COST TO YOU!

ABC Network's role is to:

- Help advocate for the Patient when they need it.
- Help resolve problems when they arise.
- Help answer questions when they have them.
- Help navigate the health care systems- it can be confusing.
- Help Patients receive the care they need when they need it.
- Help find services and programs in their area.
- Help assist in any way we can.

We will be reaching out to you within two-weeks of your doctor visit to answer any questions you may have. If you would like to talk to us sooner, please give us a call.
